

Adding Fractions Common Denominator

Worksheet Number 9

Name: _____

$\frac{5}{9} + \frac{3}{9} = \underline{\quad}$ <p style="text-align: right;">(1)</p>	$\frac{2}{8} + \frac{1}{8} = \underline{\quad}$ <p style="text-align: right;">(11)</p>	$\frac{3}{4} + \frac{1}{4} = \underline{\quad}$ <p style="text-align: right;">(21)</p>
$\frac{6}{8} + \frac{1}{8} = \underline{\quad}$ <p style="text-align: right;">(2)</p>	$\frac{1}{8} + \frac{5}{8} = \underline{\quad}$ <p style="text-align: right;">(12)</p>	$\frac{1}{9} + \frac{2}{9} = \underline{\quad}$ <p style="text-align: right;">(22)</p>
$\frac{1}{4} + \frac{1}{4} = \underline{\quad}$ <p style="text-align: right;">(3)</p>	$\frac{2}{5} + \frac{2}{5} = \underline{\quad}$ <p style="text-align: right;">(13)</p>	$\frac{7}{9} + \frac{1}{9} = \underline{\quad}$ <p style="text-align: right;">(23)</p>
$\frac{3}{5} + \frac{1}{5} = \underline{\quad}$ <p style="text-align: right;">(4)</p>	$\frac{2}{5} + \frac{1}{5} = \underline{\quad}$ <p style="text-align: right;">(14)</p>	$\frac{1}{10} + \frac{2}{10} = \underline{\quad}$ <p style="text-align: right;">(24)</p>
$\frac{1}{4} + \frac{2}{4} = \underline{\quad}$ <p style="text-align: right;">(5)</p>	$\frac{3}{5} + \frac{1}{5} = \underline{\quad}$ <p style="text-align: right;">(15)</p>	$\frac{3}{9} + \frac{4}{9} = \underline{\quad}$ <p style="text-align: right;">(25)</p>
$\frac{1}{8} + \frac{5}{8} = \underline{\quad}$ <p style="text-align: right;">(6)</p>	$\frac{2}{10} + \frac{7}{10} = \underline{\quad}$ <p style="text-align: right;">(16)</p>	$\frac{2}{5} + \frac{1}{5} = \underline{\quad}$ <p style="text-align: right;">(26)</p>
