

# Square Numbers to 12

## Worksheet Number 1

Name: \_\_\_\_\_

$6 \times 6 = \underline{\quad\quad} (1)$	$12 \text{ squared} = \underline{\quad\quad} (11)$	$4 \text{ squared} = \underline{\quad\quad} (21)$
$1 \text{ squared} = \underline{\quad\quad} (2)$	$8 \times 8 = \underline{\quad\quad} (12)$	$10 \text{ squared} = \underline{\quad\quad} (22)$
$3^2 = \underline{\quad\quad} (3)$	$4^2 = \underline{\quad\quad} (13)$	$7 \times 7 = \underline{\quad\quad} (23)$
$8 \times 8 = \underline{\quad\quad} (4)$	$10 \text{ squared} = \underline{\quad\quad} (14)$	$10 \times 10 = \underline{\quad\quad} (24)$
$10 \text{ squared} = \underline{\quad\quad} (5)$	$3^2 = \underline{\quad\quad} (15)$	$4 \text{ squared} = \underline{\quad\quad} (25)$
$1 \times 1 = \underline{\quad\quad} (6)$	$12 \text{ squared} = \underline{\quad\quad} (16)$	$3 \text{ squared} = \underline{\quad\quad} (26)$
$5 \times 5 = \underline{\quad\quad} (7)$	$10 \text{ squared} = \underline{\quad\quad} (17)$	$2 \times 2 = \underline{\quad\quad} (27)$
$9^2 = \underline{\quad\quad} (8)$	$6 \text{ squared} = \underline{\quad\quad} (18)$	$3 \text{ squared} = \underline{\quad\quad} (28)$
$5 \text{ squared} = \underline{\quad\quad} (9)$	$1 \text{ squared} = \underline{\quad\quad} (19)$	$2 \text{ squared} = \underline{\quad\quad} (29)$
$11^2 = \underline{\quad\quad} (10)$	$7 \times 7 = \underline{\quad\quad} (20)$	$3^2 = \underline{\quad\quad} (30)$
